

Genting Singapore (GENS SP)

Ganbatte GENS

BUY

[Prior:HOLD]

Share Price SGD 0.86
 12m Price Target SGD 1.16 (+37%)
 Previous Price Target SGD 0.86

Upgrade to BUY with higher TP of SGD1.16 (+35%)

We believe that the GENS-Sega Sammy JV will win the Yokohama IR RFP process. If GENS owns 50% of the JV, we estimate that a Yokohama IR will add SGD1.8b to earnings and SGD0.30/shr to our TP. Adding the latter to our DCF-based TP, we raise our TP to SGD1.16 from SGD0.86 and upgrade GENS to BUY. There is a risk an anti-IR Yokohama mayor may be elected on 29 Aug 2021 but GENS is a tactical BUY as we believe no value from a Yokohama IR has been imputed into its share price currently.

Straight fight between GENS-Sega Sammy and Melco

On Monday, Yokohama announced that two groups qualified for its IR RFP process. NHK reported that the two groups are a **GENS-Sega Sammy (6460 JP, Not Rated) JV** (which we did not expect) and **Melco Resorts & Entertainment (MLCO US, Not Rated)**. On contractors, GENS-Sega Sammy JV named **Kajima Corporation (1812 JP, Not Rated)** while Melco named **Taisei Corporation (1801 JP, Not Rated)**. Recall that Kajima was the main contractor that constructed GENS' Resorts World Sentosa.

Advantage GENS-Sega Sammy, in our view

In our view, GENS scores better in promoting tourism, management and financial ability and responsible gambling initiatives relative to Melco (see page 18 to 21 of our earlier report [here](#)). Yokohama is expected to announce the winner of its IR RFP process in the summer (Jun to Aug) of this year. On another note, Sega Sammy stated that it would prefer a minority stake in any JV for a Yokohama IR bid ([link](#)). Thus, we gather that GENS may own at least 50% of the GENS-Sega Sammy JV.

Yokohama IR to add ≥SGD0.30/shr to our TP

Recall that we estimated that a Yokohama IR will generate USD2.7b in net profit in the first full year of operations and is worth USD5.4b (SGD7.2b or SGD0.60/shr) (see page 22 to 23 of our earlier report [here](#)). We reproduce those pages below. Should GENS' shareholding be a hypothetical 50%, the earnings and value accretion will be a substantial SGD1.8b and SGD0.30/shr. Adding the aforesaid SGD0.30/shr to our earlier DCF-based TP of SGD0.86, we raise our TP to SGD1.16 (Fig. 2).

ESG@MKE
 Tear Sheet Insert

Value Proposition

- Owns and operates Resorts World Sentosa, one of two integrated resorts in Singapore.
- ROE < WACC due to VIP market slowdown driven by Chinese economic slowdown.
- Will consider expanding into other markets (e.g. Japan) if projected IRR > 15% and group ROEs return to > 10%.
- Redeemed SGD2.3b perpetual securities in 2017 but raising JPY bonds to finance a potential Japanese casino license.

Share of Singapore gross gaming revenue

Source: Company, Las Vegas Sands, Maybank Kim Eng

Financial Metrics

- Key financial metric is EBITDA. Most casino operators are valued on EV/EBITDA basis.
- Forecast FY21E EBITDA to remain relatively flat as Singapore's borders remain largely closed.
- Forecast FY22E EBITDA to recover 59% YoY on Malaysian gamblers returning.
- Forecast FY23E EBITDA to recover 54% YoY on Chinese, Indonesian and Malaysian gamblers returning.
- Balance sheet in net cash position of SGD3.7b or SGD0.31/share as at end-4Q20.

EBITDA (SGDm)

Source: Company, Maybank Kim Eng

Price Drivers

Historical share price trend

Source: Company, Maybank Kim Eng

- Declared maiden interim DPS of 1.5cents/Japanese Diet passed the IR Promotion Bill.
- Reported 1Q17 core net profit of >SGD150m due to lower than expected direct VIP rebate rates.
- Reported 3Q17 core net profit of >SGD175m due to higher than expected VIP volume.
- Casino entry levy hiked by 50% and casino tax rates will be hiked by 3-7ppts in Mar 2022.
- COVID-19 pandemic struck Singapore. RWS closed from 6 Apr until 30 Jun 2020.

Swing Factors

Upside

- VIP win rate - if VIP win rate is above theoretical levels, it can positively influence earnings.
- VIP: mass market mix - tilt towards mass market will expand margins due to less commissions and rebates.
- SGD4.5b RWS expansion - dubbed 'RWS2.0', this will expand gaming and non-gaming capacity.

Downside

- VIP win rate - if VIP win rate is below theoretical levels, it can negatively influence earnings.
- Bad debts - Chinese accounts for the majority of VIPs but gambling debts are not enforceable in China.
- Regional expansion - new jurisdictions often require high capex commitments without guaranteeing returns.

Risk Rating & Score¹	21.1 (Medium)
Score Momentum²	-0.8
Last Updated	15 Apr 2021
Controversy Score³ (Updated: 10 Nov 2020)	1 - Business ethics

Business Model & Industry Issues

- GENS' Resorts World Sentosa (RWS) operates, in our opinion, in the most highly regulated casino jurisdiction in the world. In our view, GENS has strong ESG credentials which stand out among its regional peers, especially the Macanese ones.
- To be sure, the strong ESG credentials are not without 'costs'. For example, RWS has to bear VIP credit risk as the engagement of Macau style junkets which have often been accused of money laundering is not permitted.
- Moreover, the 50% increase in casino entry levies for Singaporean citizen and permanent resident (SCPR) gamblers effective 4 Apr 2019 also caused RWS to rely less on the steadier base of local gamblers and more on fickle international gamblers.
- That said, countries seeking to liberalise their casino industries like Japan are looking to Singapore's highly regulated casino industry and the strong ESG credentials it engenders for guidance.
- In our view, this could give GENS an advantage in bidding for a Japanese casino license.

Material E issues

- No material environmental issues. RWS was built on the demolished plot of the Imbiah lookout on Sentosa Island.
- RWS even houses 2.9 ha of protected secondary forest and >100,000 marine animals in the S.E.A. Aquarium (SEAA)
- SEAA has been criticised for keeping dolphins in captivity in the past.
- Yet, SEAA is accredited by the Association of Zoos and Aquariums and World Association of Zoos and Aquariums.
- SEAA partners James Cook University, Singapore and hosted Science in the SEAA series.
- The series involves researchers and experts sharing about their work with marine conservation enthusiasts.
- SEAA also promotes marine biodiversity by forming a conservation group, Guardians of the SEAA.
- Other environmental accreditations include BCA Green Mark, Singapore Packaging Awards, Singapore Green Building Council and CIPS Asia Supply Management Awards.
- Phased out plastic straws/bottles in 2018/2019, saving 3m straws and 6.7m plastic bottles p.a

Material S issues

- Regulated by the Casino Regulatory Authority (CRA) under the Casino Control Act (CCA).
- Problem gambling regulated by the National Council on Problem Gambling (NCPG).
- SCPR gamblers required to pay casino entry levies of SGD150 per 24 hours or SGD3,000 p.a.
- NCPG can issue visit limits and exclusion orders at the request of individuals, casinos or on its own initiative.
- In Nov 2015, RWS became the first casino in Asia Pacific to receive RG Check accreditation from the Responsible Gambling Council.
- Since Dec 2018, RWS attained RG Check reaccreditation and achieved the highest score amongst >150 venues.
- Launched Manage Game Play Programme in 2020, a tool to help patrons self-regulate time spent at gaming machines.
- Stations RG Ambassadors to inform and assist patrons on responsible gambling. RWS also holds RG road shows.

Key G metrics and issues

- BOD comprises Executive Chairman, President & COO, Lead Independent Director and 3 Independent NonExecutive Directors (INED).
- Madam Chan Swee Liang Carolina, Lead Independent Director is the sole woman director.
- Tan Sri Lim Kok Thay, Executive Chairman represents Genting Berhad, GENS' largest shareholder at 53%.
- No members of Tan Sri Lim's family hold management positions in GENS.
- FY20 reported directors' remuneration of SGD34.9m was up 72% YoY.
- The increment was largely due to recognition of incentive shares which have not vested yet.
- GENS stated that directors' FY20 cash remuneration was markedly lower YoY.
- Audit & Risk Committee and Remuneration Committee comprise three members each who are all INEDs.
- Nominating Committee comprises three members, of which, two are INEDs.
- Two of five RWS key management personnel are women, the CFO and CCO.
- PricewaterhouseCoopers LLP is the independent auditor. They have been appointed for >10 years.
- Last major related party transaction was in 2010 when Genting UK was sold to Genting Malaysia for GBP340m.
- That said, the investment community was of the opinion that the transaction favoured GENS over GENM.
- This was because GENM acquired Genting UK at valuation multiples that were higher than its own.
- Occasionally fined by the CRA but the fines were for infractions which were minor, in our view.
- Most fines were for SCPRs entering/remaining in the casino without valid casino entry levies
- Governed by the CCA which contains anti-money laundering regulations.
- CCA does not permit Macau style junkets which have often been accused of money laundering.
- Developed and employs a Prevention Of Money Laundering and Terrorism Financing Framework.

¹**Risk Rating & Score** - derived by Sustainalytics and assesses the company's exposure to unmanaged ESG risks. Scores range between 0 - 50 in order of increasing severity with low/high scores & ratings representing negligible/significant risk to the company's enterprise value, respectively, from ESG-driven financial impacts. ²**Score Momentum** - indicates changes to the company's score since the last update - a **negative** integer indicates a company's improving risk score; a **positive** integer indicates a deterioration. ³**Controversy Score** - reported periodically by Sustainalytics in the event of material ESG-related incident(s), with the impact severity scores of these events ranging from Category 0-5 (0 - no reports; 1 - negligible risks; ...; 5 - poses serious risks & indicative of potential structural deficiencies at the company).

Yokohama IR may add up to SGD0.60/shr to our TP

We next attempt to quantify the earnings and value accretion to GENS should it win the Yokohama IR RFP process. Although GENS directly responded to the Yokohama IR RFP process, we have been made to understand that GENS may not own 100% of the company that may eventually construct and operate the Yokohama IR. Most foreign companies that wish to expand into Japan often establish joint ventures with Japanese companies and GENS is unlikely to be any different. Notwithstanding, we make the following assumptions:

- **Net gaming revenue** - As explained in our earlier report ([link](#)), we forecast Yokohama IR GGR of USD7.0b p.a. For simplicity's sake, we assume that its VIP: mass market GGR mix will be 15%:85% instead of our forecasted 17%:83%. We also assume that 50% of VIP GGR will be rebated directly to VIPs in the form of complimentary accommodation, food and beverage, entertainment etc.
- **Non-gaming revenue** - Due to lack of information on non-gaming facilities that may be offered at the Yokohama IR, we assume that it will account for 30% of net gaming revenue. We note that non-gaming revenue accounted for 42% of net gaming revenue at Marina Bay Sands (MBS) and 33% of net gaming revenue at RWS since both IRs opened in 2010.
- **Fixed operating expenses** - Again, there is no information on how large the Yokohama IR may be. Yokohama did not lay out its expectations in its 'Matters related to the Project for Establishment and Operation of Specified Complex Tourist Facilities in Yokohama' document ([link](#)). That said, Osaka did and expects its IR to have total gross floor area (GFA) of 1.0m sqm ([link](#)) which is huge.

To put things into perspective, the GFA of MBS is 581,400 sqm while the GFA of RWS is 343,000 sqm. We assume that the Yokohama IR will also have total GFA of 1.0m sqm. We also note that RWS has been incurring fixed operating expenses at c.USD900/sqm since it opened in 2010. Multiplying the two aforementioned parameters, we forecast the Yokohama IR to incur fixed operating expenses of USD900m p.a.

- **Salaries** - At its peak, RWS employed c.14,000 employees (c. 6,000 employees currently) and MBS employs c.10,000 employees currently. If the Yokohama IR will have total GFA of 1.0m sqm and be larger than MBS and RWS combined, we gather that it will require c.20,000 employees. Assuming average salary per employee of USD50,000 (2019 average GDP per capita in Japan: USD40,247), we forecast that the Yokohama IR will incur salaries of USD1.0b p.a.
- **Impairment of VIP receivables** - Recall that Japan has banned junkets outright. This means that IRs will have to extend credit to VIPs directly. We assume that 10% of current year VIP GGR will be impaired. We note that RWS has been impairing an average of 10% of current year VIP GGR since it opened in 2010.
- **Gaming tax** - This is relatively straightforward as it is calculated at 30% of GGR regardless of whether it is VIP or mass market GGR. Unlike Singapore, we understand that the 10% consumption tax will not be levied on top of gaming tax.
- **Depreciation** - We assume that the Yokohama IR will cost USD10b to construct and be depreciated over 20 years or 5% p.a. Osaka expects its IR to cost JPY930b (USD8.5b) and we understand that Yokohama IR RFP process respondents have proposed capex ranging from JPY620b (USD5.7b) to JPY1.3t (USD11.9b).

- **Corporate tax** - Japan's corporate tax rate is 23.2%. That said, Japanese companies also incur local corporate tax, enterprise tax, local corporate special tax, special corporate business tax and inhabitants' tax. Thus, the effective Japanese corporate tax rate is 30.6%. For simplicity's sake, we assume effective corporate tax rate of 30%.
- **Capex** - Again, we assume that the Yokohama IR will cost USD10b to construct and will take 5 years to complete due to earthquake safety requirements. Thereafter, we assume that 5% of total revenue will be incurred as maintenance capex. We note that gaming companies tend to incur 3-5% of total revenue as maintenance capex.

Assuming that the Yokohama IR will be 100% equity financed, we estimate that it will generate USD2.7b in net profit in the first full year of operations. Assuming cost of equity of 12.3% (cost of equity discount rate we utilise to discount RWS' cash flows) and terminal growth rate of -0.5% (long term population growth forecast of Japan by Statistics Bureau Japan), we estimate that the Yokohama IR is worth USD5.4b (SGD7.2b or SGD0.60/shr) (Fig. 1).

APPENDIX I: TERMS FOR PROVISION OF REPORT, DISCLAIMERS AND DISCLOSURES

DISCLAIMERS

This research report is prepared for general circulation and for information purposes only and under no circumstances should it be considered or intended as an offer to sell or a solicitation of an offer to buy the securities referred to herein. Investors should note that values of such securities, if any, may fluctuate and that each security's price or value may rise or fall. Opinions or recommendations contained herein are in form of technical ratings and fundamental ratings. Technical ratings may differ from fundamental ratings as technical valuations apply different methodologies and are purely based on price and volume-related information extracted from the relevant jurisdiction's stock exchange in the equity analysis. Accordingly, investors' returns may be less than the original sum invested. Past performance is not necessarily a guide to future performance. This report is not intended to provide personal investment advice and does not take into account the specific investment objectives, the financial situation and the particular needs of persons who may receive or read this report. Investors should therefore seek financial, legal and other advice regarding the appropriateness of investing in any securities or the investment strategies discussed or recommended in this report.

The information contained herein has been obtained from sources believed to be reliable but such sources have not been independently verified by Maybank Investment Bank Berhad, its subsidiary and affiliates (collectively, "MKE") and consequently no representation is made as to the accuracy or completeness of this report by MKE and it should not be relied upon as such. Accordingly, MKE and its officers, directors, associates, connected parties and/or employees (collectively, "Representatives") shall not be liable for any direct, indirect or consequential losses or damages that may arise from the use or reliance of this report. Any information, opinions or recommendations contained herein are subject to change at any time, without prior notice.

This report may contain forward looking statements which are often but not always identified by the use of words such as "anticipate", "believe", "estimate", "intend", "plan", "expect", "forecast", "predict" and "project" and statements that an event or result "may", "will", "can", "should", "could" or "might" occur or be achieved and other similar expressions. Such forward looking statements are based on assumptions made and information currently available to us and are subject to certain risks and uncertainties that could cause the actual results to differ materially from those expressed in any forward looking statements. Readers are cautioned not to place undue relevance on these forward-looking statements. MKE expressly disclaims any obligation to update or revise any such forward looking statements to reflect new information, events or circumstances after the date of this publication or to reflect the occurrence of unanticipated events.

MKE and its officers, directors and employees, including persons involved in the preparation or issuance of this report, may, to the extent permitted by law, from time to time participate or invest in financing transactions with the issuer(s) of the securities mentioned in this report, perform services for or solicit business from such issuers, and/or have a position or holding, or other material interest, or effect transactions, in such securities or options thereon, or other investments related thereto. In addition, it may make markets in the securities mentioned in the material presented in this report. One or more directors, officers and/or employees of MKE may be a director of the issuers of the securities mentioned in this report to the extent permitted by law.

This report is prepared for the use of MKE's clients and may not be reproduced, altered in any way, transmitted to, copied or distributed to any other party in whole or in part in any form or manner without the prior express written consent of MKE and MKE and its Representatives accepts no liability whatsoever for the actions of third parties in this respect.

This report is not directed to or intended for distribution to or use by any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation. This report is for distribution only under such circumstances as may be permitted by applicable law. The securities described herein may not be eligible for sale in all jurisdictions or to certain categories of investors. Without prejudice to the foregoing, the reader is to note that additional disclaimers, warnings or qualifications may apply based on geographical location of the person or entity receiving this report.

Malaysia

Opinions or recommendations contained herein are in the form of technical ratings and fundamental ratings. Technical ratings may differ from fundamental ratings as technical valuations apply different methodologies and are purely based on price and volume-related information extracted from Bursa Malaysia Securities Berhad in the equity analysis.

Singapore

This report has been produced as of the date hereof and the information herein may be subject to change. Maybank Kim Eng Research Pte. Ltd. ("Maybank KERPL") in Singapore has no obligation to update such information for any recipient. For distribution in Singapore, recipients of this report are to contact Maybank KERPL in Singapore in respect of any matters arising from, or in connection with, this report. If the recipient of this report is not an accredited investor, expert investor or institutional investor (as defined under Section 4A of the Singapore Securities and Futures Act), Maybank KERPL shall be legally liable for the contents of this report, with such liability being limited to the extent (if any) as permitted by law.

Thailand

Except as specifically permitted, no part of this presentation may be reproduced or distributed in any manner without the prior written permission of Maybank Kim Eng Securities (Thailand) Public Company Limited. Maybank Kim Eng Securities (Thailand) Public Company Limited ("MBKET") accepts no liability whatsoever for the actions of third parties in this respect.

Due to different characteristics, objectives and strategies of institutional and retail investors, the research products of MBKET Institutional and Retail Research departments may differ in either recommendation or target price, or both. MBKET reserves the rights to disseminate MBKET Retail Research reports to institutional investors who have requested to receive it. If you are an authorised recipient, you hereby tacitly acknowledge that the research reports from MBKET Retail Research are first produced in Thai and there is a time lag in the release of the translated English version.

The disclosure of the survey result of the Thai Institute of Directors Association ("IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an evaluation of operation and is not based on inside information. The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey may be changed after that date. MBKET does not confirm nor certify the accuracy of such survey result.

The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by Thaipat Institute, is made in order to comply with the policy and sustainable development plan for the listed companies of the Office of the Securities and Exchange Commission. Thaipat Institute made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of Thaipat Institute that is a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, MBKET does not confirm, verify, or certify the accuracy and completeness of the assessment result.

US

This third-party research report is distributed in the United States ("US") to Major US Institutional Investors (as defined in Rule 15a-6 under the Securities Exchange Act of 1934, as amended) only by Maybank Kim Eng Securities USA Inc ("Maybank KESUSA"), a broker-dealer registered in the US (registered under Section 15 of the Securities Exchange Act of 1934, as amended). All responsibility for the distribution of this report by Maybank KESUSA in the US shall be borne by Maybank KESUSA. This report is not directed at you if MKE is prohibited or restricted by any legislation or regulation in any jurisdiction from making it available to you. You should satisfy yourself before reading it that Maybank KESUSA is permitted to provide research material concerning investments to you under relevant legislation and regulations. All U.S. persons receiving and/or accessing this report and wishing to effect transactions in any security mentioned within must do so with: Maybank Kim Eng Securities USA Inc. 400 Park Avenue, 11th Floor, New York, New York 10022, 1-(212) 688-8886 and not with, the issuer of this report.

UK

This document is being distributed by Maybank Kim Eng Securities (London) Ltd (“Maybank KESL”) which is authorized and regulated, by the Financial Conduct Authority and is for Informational Purposes only. This document is not intended for distribution to anyone defined as a Retail Client under the Financial Services and Markets Act 2000 within the UK. Any inclusion of a third party link is for the recipients convenience only, and that the firm does not take any responsibility for its comments or accuracy, and that access to such links is at the individuals own risk. Nothing in this report should be considered as constituting legal, accounting or tax advice, and that for accurate guidance recipients should consult with their own independent tax advisers.

Disclosure of Interest

Malaysia: MKE and its Representatives may from time to time have positions or be materially interested in the securities referred to herein and may further act as market maker or may have assumed an underwriting commitment or deal with such securities and may also perform or seek to perform investment banking services, advisory and other services for or relating to those companies.

Singapore: As of 2 June 2021, Maybank KERPL and the covering analyst do not have any interest in any companies recommended in this research report.

Thailand: MBKET may have a business relationship with or may possibly be an issuer of derivative warrants on the securities /companies mentioned in the research report. Therefore, Investors should exercise their own judgment before making any investment decisions. MBKET, its associates, directors, connected parties and/or employees may from time to time have interests and/or underwriting commitments in the securities mentioned in this report.

Hong Kong: As of 2 June 2021, KESHK and the authoring analyst do not have any interest in any companies recommended in this research report.

India: As of 2 June 2021, and at the end of the month immediately preceding the date of publication of the research report, KESI, authoring analyst or their associate / relative does not hold any financial interest or any actual or beneficial ownership in any shares or having any conflict of interest in the subject companies except as otherwise disclosed in the research report.

In the past twelve months KESI and authoring analyst or their associate did not receive any compensation or other benefits from the subject companies or third party in connection with the research report on any account what so ever except as otherwise disclosed in the research report.

MKE may have, within the last three years, served as manager or co-manager of a public offering of securities for, or currently may make a primary market in issues of, any or all of the entities mentioned in this report or may be providing, or have provided within the previous 12 months, significant advice or investment services in relation to the investment concerned or a related investment and may receive compensation for the services provided from the companies covered in this report.

OTHERS

Analyst Certification of Independence

The views expressed in this research report accurately reflect the analyst’s personal views about any and all of the subject securities or issuers; and no part of the research analyst’s compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in the report.

Reminder

Structured securities are complex instruments, typically involve a high degree of risk and are intended for sale only to sophisticated investors who are capable of understanding and assuming the risks involved. The market value of any structured security may be affected by changes in economic, financial and political factors (including, but not limited to, spot and forward interest and exchange rates), time to maturity, market conditions and volatility and the credit quality of any issuer or reference issuer. Any investor interested in purchasing a structured product should conduct its own analysis of the product and consult with its own professional advisers as to the risks involved in making such a purchase.

No part of this material may be copied, photocopied or duplicated in any form by any means or redistributed without the prior consent of MKE.

Historical recommendations and target price: Genting Singapore (GENS SP)

Definition of Ratings

Maybank Kim Eng Research uses the following rating system

- BUY** Return is expected to be above 10% in the next 12 months (including dividends)
- HOLD** Return is expected to be between 0% to 10% in the next 12 months (including dividends)
- SELL** Return is expected to be below 0% in the next 12 months (including dividends)

Applicability of Ratings

The respective analyst maintains a coverage universe of stocks, the list of which may be adjusted according to needs. Investment ratings are only applicable to the stocks which form part of the coverage universe. Reports on companies which are not part of the coverage do not carry investment ratings as we do not actively follow developments in these companies.
